AUGUST 1951. NUMBER 2

Clinical Measurements of Aqueous Outflow. W. Morton Grant, M.D., Boston 113

Evaluation of the Surgery of Congenital Cataracts. Frederick C. Cordes, M.D., San Francisco 132

Divergence Paralysis with Increased Intracranial Pressure: Further Observations. Max Chamlin, M.D., and Leo M. Davidoff, M.D., New York 145

Modifications of the Zeiss-Nordenson Retinal Camera. Margaret Markham, B.A., B.P.A., New York 148

Clinical Notes:

A Modified Cross Cylinder. John A. Egan, M.D., Denver 153

A Modified Strabismus Muscle Forceps. Colonel J. H. King Jr., Medical Corps, United States Army, and Captain R. L. Forrest, Medical Corps, United States Air Force 155

Registry of Interesting Cases:

Foreign Body (Curtain Rod) Penetrating Orbit, Pharynx, and Neck, with Complete Recovery. Homer B. Field, M.D., Blue Island, Ill. 157

Annual Reviews:

Pharmacology and Toxicology. I. H. Leopold, M.D., Philadelphia 159

Society Transactions:

New York Academy of Medicine, Section of Ophthalmology 225

INDEX TO VOLUME 46

The asterisk (*) preceding the page number indicates an original article. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries, and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O, and S, respectively.

Abnormalities and Deformities: See under names of organs and regions
Accommodation and Refraction
accommodative convergence [Tait], 95
ACTH: See Corticotropin
Adie's Syndrome: See under Pupils
Adrenergic Blocking Agents
tension-lowering effects [review by Leopold], 216
in treatment of glaucoma [Mullen & Leopold], *549
Alfano, J.
Band keratopathy in disturbances of calcium metabolism, *531
Alpers, B. J.
Bilateral internal carotid aneurysm involving cavernous sinus: right carotid artery-cavernous sinus fistula and left saccular aneurysm, *403
Anaphylaxis and Allergy
influence of corticotropin and cortisone [review by Leopold], 197
Anesthesia: See also under names of anesthetic agents in ophthalmic procedures [review by Leopold], 207
Aneurysms
carotid [review by Rucker], 592
carotid: bilateral, involving cavernous sinus [Alpers & others], *403
of circle of Willis [review by Rucker], 592
congenital arteriovenous (racemose) of retina [Rundles & Falls], *408
diagnosis: angiography [review by Rucker], 593
Angiomatosis
encephalotrigeminal [Berliner & Breinin], *39
Antazoline: See Histamine, antagonists
Anterior Chamber Angle
dermoid of limbus involving [Garner], 69
Antibiotics
and chemotherapy [review by Leopold], 159
clinical use [Long], 361
combinations [review by Leopold], 171
principles of use in ophthalmology [Leopold], 360
resistance to [review by Leopold], 170
selection [review by Leopold], 165, 178
therapy, prophylactic [review by Leopold], 177
therapy: schedules [review by Leopold], 174
toxicity [review by Leopold], 172
in treatment of trachoma [review by Leopold], 177
Anticoagulants: See also Blood, coagulation
use in ophthalmology [review by Leopold], 210
Antigen-Antibody Reaction: See Anaphylaxis and Allergy
Antihistamines: See Histamine, antagonists
Antistine® (antazoline): See Histamine, antagonists
Apparatus: See Instruments
Aqueous Humor
chemistry [review by Kinsey], 447
clinical measurements of aqueous outflow [Grant], *113
rate of flow in normal and acorbutic guinea pigs [Bárány], *326
Aqueous Veins
compensation maximum: new glaucoma sign in [Kleinert], *618
Arteriography
ocular complications [review by Rucker], 593
Ascorbic acid
effect of histamine antagonists on ascorbic acid content of adrenal glands [review by Leopold], 186
relation of ascorbic acid content of adrenal glands and adrenocorticotropic hormones [review by Leopold], 190
Aureomycin
in treatment of experimental herpes simplex keratitis [Hallett & others], *36
Autohemotherapy
effect on adrenal cortex [review by Leopold], 201
Autonomic Drugs
roles in ophthalmology [review by Leopold], 212

Bacteriology
bacteriological studies of aqueous humor in uveitis [von Sallmann & others], *4
Banthine®: See Parasympathomimetic Blocking Agents
Bárány, E.
Rate of flow of aqueous humor in normal and scorbutic guinea pigs, *326

trifocal: experiment in which 50 presbyopes were provided with [Miles], *542
Glaucoma
acute, simulating acute iritis [Posner], 584
annual review [Scheie], 677
compensation maximum: new sign in aqueous veins [Kleinert], *618
gonioscopic study of fistulizing operations [De Voe], *504
infantile [review by Scheie], 706
medical treatment [review by Scheie], 694
pathogenesis: clinical measurements of aqueous outflow [Grant], *113
primary: diagnosis [review by Scheie], 691
primary: mechanism of [review by Scheie], 678
primary: surgical treatment [review by Scheie], 700
secondary [review by Scheie], 707
treatment: adrenergic blocking agents in [Mullen & Leopold], *549
treatment: medical [Grant], 122
treatment: surgical [Grant], 121
Gonioscopy: See Eyes, examination
Grant, W. M.
Clinical measurements of aqueous outflow, *113

Hallett, J. W.
Effect of systemic cortisone and corticotrophin (ACTH) on experimental herpes simplex keratitis, *268
Treatment of experimental herpes simplex in the rabbit, *33
Hayes, G. J.
Unilateral proptosis due to fibrous dysplasia of bone: report of 2 cases, *553
von Helmholtz, H.
Description of ophthalmoscope for examining retina in living eye [reprint translated by R. W. Hollenhorst], *565
Heparin: See Anticoagulants
Hexaethyltetraphosphate: See Cholinesterase, antagonists
Histadyl® (methapyriiene): See Histamine, antagonists
Histamine
antagonists: control of vestibular toxic effects of streptomycin with dimenhydrinate [review by Leopold], 186
antagonists: deaths from use of [review by Leopold], 185
antagonists: effect on adrenal cortex response to histamine and to stress [review by Leopold], 186
antagonists: effect on ascorbic acid content of adrenal gland [review by Leopold], 186
antagonists: mode of action [review by Leopold], 184
antagonists: in treatment of experimental herpetic keratitis [Hallett & others], *37
anti-histidine-decarboxylase: therapy [review by Leopold], 186
bichlorhydrate: as inhibitor of cocaine anesthesia [review by Leopold], 207
effect on adrenal gland [review by Leopold], 186
formation: histidine decarboxylase as aid in [review by Leopold], 186
Histology
ocular: in lipochondrodystrophy [Wexler], *14
Hollenhorst, R. W., trans.: See von Helmholtz, H.
Horner's Syndrome: See under Pupils
Hubbard, R.
Photochemistry: annual review, 453
Hunter, M. C.
Human infection with Newcastle virus of fowls, 94
Hurler's Disease: See Lipochondrodystrophy
Hyaluronidase
use in ophthalmologic practice [review by Leopold], 183

Imidazolines
in treatment of glaucoma [Mullen & Leopold], *549
Immunity: See Anaphylaxis and Allergy
Implants
exposed [Kennedy & Shipman], 460

Infections
cortisone and [review by Leopold], 195
Instruments
combination square prism and lollipop holder [Krimsky], *337
description of ophthalmoscope [von Helmholtz], *565
illuminated monocular eyeglass loupe [Krimsky], *339
modifications of Zeiss-Nordenson retinal camera [Markham], *148
modified cross cylinder [Egan], *153
new device for measuring diplopia fields [Sloane], *302
new eye-particle remover [Biederman], *661
use of simple type, electric indirect ophthalmoscope [Ross], *645
Iris
unusual pigmented tumor [Winter & Maumenee], 438
Iris Angle: See Anterior Chamber Angle
Iritis:
acute: glaucoma simulating [Posner], 584
Iwashige, Y.
Terramycin in treatment of trachoma, *235

Keeney, A. H.
Human infection with Newcastle virus of fowls, 94
Kellerman, L.
Pregnenolone therapy in uveitis, *419
Kennedy, P. J.
Exposed implants: follow-up report, 460
Keratitis
bullous: from vitreous contact [Leahey], *22
herpetic: experimental, effect of systemic cortisone and corticotropin on [Hallett & others], 268
herpetic: experimental, treatment [Hallett & others], *23
Keratopathy: See under Cornea
King, A. B.
Traumatic encephaloceles of orbit, *49
King, R. B.
Unilateral proptosis due to fibrous dysplasia of bone: report of 2 cases, *553
Kinsey, V. E.
Physiologic chemistry of eye: review of papers published during 1950, 441
Studies on crystalline lens: distribution of cytochrome, total riboflavin, lactate, and pyruvate and their metabolic significance, *536
Kirby, D. B.
New procedures in lateral canthus surgery, 465
Kleinert, H. W.
Compensation maximum: new glaucoma sign in aqueous veins, *618
Krieger, H. P.
Dark adaptation in perimetrically blind fields, *625
Krimsky, E.
Combination square prism and lollipop holder, *337
Illuminated monocular eyeglass loupe, *339

Lachesine: See Parasympathomimetic Blocking Agents
Lacrimal organs
lesions of lacrimal gland affecting orbit [review by Fralick], 355
localization of lacrimal sac in dacryocystorhinostomy [Christensen], *501
primary carcinoma of lacrimal sac [Locke], 229
Leahey, B. D.
Bullous keratitis from vitreous contact, *22
Lens, Crystalline
chemistry [review by Kinsey], 451
dermoid of limbus involving [Garner], 69
distribution and metabolic significance of cytochrome, total riboflavin, lactate, and pyruvate [Kinsey & Frohman], *536
Leopold, I. H.
Adrenergic blocking agents in treatment of glaucoma, *549
Effect of systemic cortisone and cortocotrophin (ACTH) on experimental herpes simplex keratitis, *268
Local and systemic use of cortisone in ocular disease, 101
Pharmacology and toxicology, annual review, 159
Principles of antibiotic therapy in ophthalmology, 360
Treatment of experimental herpes simplex in rabbit, *33
Lidocaine
hydrochloride: as local and regional anesthetic [review by Leopold], 208
Limbus
dermoid of, involving iris angle and lens [Garner], 69
Linhart, W. O.
Induced ocular tuberculosis: report of probable case, *271
Linman, J. W.
Anticoagulant therapy in occlusive disease of retina, *601
Lion, K. S.
Analysis of ocular movements by means of electrical method, *311
Study of ocular movement under stress, *315
Lipochondrodystrophy
ocular histology [Wexler], *14
Locke, B. D.
Cytological and bacteriological studies of aqueous humor in uveitis, *4
Locke, J. C.
Cytological and bacteriological studies of aqueous humor in uveitis, *4
Primary carcinoma of lacrimal sac, 229
Long, P. H.
clinical use of antibiotics, 361
Lowenstein, O.
Methods for early diagnosis of multiple sclerosis: observations with special reference to so-called ocular type, *513
Lysozyme
content of normal tears [review by Leopold], 184

Mascall, I. T.
Occlusion of central retinal vein: ophthalmological review, 668
Markham, M.
Modifications of Zeiss-Nordenson retinal camera, *148
Maumenee, A. E.
Unusual pigmented tumor of iris, *438
McDonald, P. R.
Causes of failure in retinal-detachment surgery, 461
Local and systemic use of cortisone in ocular disease, 101
McGrath, H.
Alopecia associated with intraocular foreign body: report of case, *319
McGraw, J. L.
Malignant melanoma associated with retinal hole, 666
Methapyrilene: See Histamine, antagonists
Meyer, S. J.
Corneal dystrophy following secondary intraocular operations, *527
Micro-Organisms
causing sympathetic ophthalmia [Schreck], *489
Miles, P. W.
Experiment in which 50 presbyopes were provided with trifocal glasses, *542
Mims, J. L., Jr.
